

# Grandmont News Team and the Coca-Cola Plant

Written by Jimmy Sum and Jacky Cheung (6B)

On 27th January, twenty-four Grandmont reporters visited the Swire Coca-Cola Plant (太古可口可樂廠) in Sha Tin. We learned a lot about Coca-Cola.

First we went to the fifth floor to know more about the history of Coca-Cola. Do you know who invented Coca-Cola? It was John Pemberton.

Next we went to the seventh floor to see how to make Coca-Cola. It was amazing! The machine was so big! All of us were very amazed.

After that we went to the seventeenth floor to visit the Coca-Cola Museum (可口可樂博物館). After looking at the exhibits for 15 minutes, we had a big surprise. The Coca-Cola Plant gave each of us a bottle of Coca-Cola for free! It was great! We all loved it!

We had a good time there. If we could, we would like to visit the plant one more time.
